Advertising: No Cost to advertise as this was held in Partnership with BBBS, and fell under them

Sponsorship: N/A

Food Amounts: Roughly 800 cobs of corn sold (which was donated by a local grower), quantities of salt pepper and other condiments. Cobs were \$3 for one or two for \$5.00.

Special Considerations: A couple of tents were needed, one for the preparation and sales and the other for the shucking of the corn. Recommended a large tent with flip up walls for the prep. Also need water and grey water vessels along with propane and other items

Planning Window: wW had a month to prepare for this but next year if the project is a go should need a minimum of 3 months.

Insurance Considerations: Covered by BBBS

Facilities: No facilities required as under the blanket of BBBS but need own equipment for the roasting of the corn.
